ADOPTED BY THE SOLDIERS CONVENTION IN DETROIT.

Resolved, That we should be recreant to our past history, false to our fallen comrades whose memories we hold dear, false to the cause for which they fell, false to humanity, false to liberty, did we not protest against the assumed right to represent us by a few of our old comrades, who for the spoils of office renounce the principles for which they battled, and lend their influence to support the policy of President Johnson, whose avowed object is to reinstate traitors whom we fought to depose. We do not acknowledge such leadership. We repudiate the attempt as an insult to our loyalty and an insult to our patriotism. We claim yet to be true to the Union, and decline to march arm in arm with traitors. We repudiate the soldiers who have bartered their honor for place.

ADOPTED BY THE REPUBLICAN STATE CONVENTION.

Resolved, That we scout and scorn as unworthy of freedom that political blasphemy which says "this is the white man's Government." It is not the white man's Government, nor the black man's Government, nor the red man's Government. It is God's Government, made for man! And all men who are true and loyal to it, of whatever race or country, color or condition, shall have under its triumphant and glorious flag all those great inalienable rights that belong to man as man.

Worthy to be written in apples of Gold and pictures of silver.

GOVERNOR MORTON'S WARNING TO YOUNG MEN.

You are just starting in life with the world all before you, when and how to choose. Beware how you connect your fortunes with a decayed and dishonored party, indelibly stained with treason, and upon whose tombstone the historian will write: "False to liberty, false to its country, and false to the age in which it lived." The democratic party has committed a crime for which history has no pardon, and the memories of men no forgiveness; whose colors grow darker from age to age and for which the execration of mankind becomes more bitter, from generation to generation.

WERE I the President of the United States I would have them arrested and tried for treason, and if convicted, by the eternal God they should suffer the penalty of the law at the hands of the executioner. I would arrest them—I would try them—I would convict them, and I would hang them.—Andrew Johnson.

HONOR I say this: The halter to intelligent, influential traitors! The leaders I would hang! I hold that that wealthy traitors should be made to remunerate those men who have suffered as a consequence of their crime. Union men who have lost their property, who have been driven from their homes, beggars and wanderers among strangers. Let us commence the work. We have put down these traitors in arms, let us put them down in law, in public judgment and in the morals of the world.—Andrew Johnson.

LET it be engraven on every heart that treason is a crime, and that traitors should suffer its penalty.—Andrew Johnson.

In the work of reconstruction traitors must take back seats. * * * I say that the traitor has ceased to be a citizen, and in joining the rebellion has become a public enemy. He forfeited his right to vote with loyal men when he renounced his citizenship, and threatened to destroy our government.—Andrew Johnson.

TRAITORS must be punished and impoverished.—Andrew Johnson.

If you could extend the elective franchise to all persons of color who can read the Constitution of the United States in English, and write their own names, and to all persons of color who own real estate valued at not less than \$250, and pay taxes thereon, you would completely disarm the adversary, and set an example the others will follow. This you can do with perfect safety. If I were in Tennessee I should try to introduce negro suffrage gradually: First, those who had served in the army; those who could read and write, and perhaps a property qualification for others—say \$200 or \$250.—Andrew Johnson.

LOYAL men, whether white or black, shall alone control her destinies.—Andrew Johnson.

ELECTIONS NEXT TUESDAY.

Tuesday Oct. 9th next elections of members of Congress and State officers in Pennsylvania, Ohio, Indiana and Iowa. We expect to hear some tall thunder, a precursor of the mighty uprising of the people of the remaining states to hold elections in November. Maine and Vermont was the rumbling. The states voting next Tuesday will be the earthquake, and the November elections will be the grand volcanic finale, engulfing the apostate President and treasonable supporters in irretrievable, overwhelming and lasting ruin.

SOLDIERS READ.

The Rebel Gen. Wright of Georgia says he was on the Committee that drafted the resolutions in the Johnson Philadelphia Convention in favor of duly rewarding Union Soldiers, and that he took care to have them so worded as not to commit the Government; for, if the South ever gets into power again, all pensions to Union soldiers shall be cut off unless the Confederate soldiers are put on the same footing.

To prevent this, we demand Constitutional guarantees.

CURRENT EVENTS.

It is said that Jeff. Davis will not be tried this year and that his counsel has been notified to that effect. A most enthusiastic reception was given to the Southern Unionists in Chicago, and a great mass meeting was held on Tuesday. —Gen Butler is to visit Michigan the latter part of this month, and will speak at many of the principal places. —Johnson is at work on his next annual message. It can be published with perfect safety at any moment as we can well surmise what it will contain. Our readers will obtain a good idea from a synopsis of his campaign speeches on our first page. —Jonathan Wright, a colored man has applied and is to be admitted to the bar of the District Court at Washington. —The lines of telegraph connecting with the Atlantic cable are again in working order. The treaty of peace between Austria and Italy has been signed. —Gold, 148½.

REVISING THE CONSTITUTION.

Our Legislature, in accordance with the Constitution, which if the people choose, can be amended by convention every 20 years, has submitted to the people at the coming election the calling of such convention. If ever a constitution was botched up and contrary to the genius of the age it was ours. To shut out a poor man from becoming Governor of Michigan is an outrage. There are many points that need revision, and we trust every voter will deposit his ballot in favor of a convention. Of course the *Free Press* is against it, because the majority of the people are republicans. Poor excuse. Twenty years ago the majority were democrats. Twenty years hence some other party may be in the majority. It never however can be the democratic party, for so long as the memory of man endures the great crime of the democratic party during the war will be treasured up. As the years roll on the democratic party will sink into deeper condemnation and reproach.

ONE WHO KNOWS HIM.

Dr James C. Jackson, a well-known lecturer and writer on Hygiene in Central New York, wrote the following to a gentleman in Chicago at the time of the President's visit, there, on his stumping tour.

I want you should say to your editor, whoever he may be, to prepare his readers for a terrible time. I know Andrew Johnson as well as any man in this country living out of East Tennessee, and I am as certain that, unless the election is overwhelmingly in favor of Congress, he will make a fight for power, as I am that he is stumping it between Washington and Chicago, or between Chicago and Washington as the case may now be. I never had any other view of the man than that I now have. I so regretted his nomination at Baltimore, that if I had only been a delegate from this State, as I might have been had I consented to go, I should have been opposed to his nomination. He is a bad, bold man, drinks hard, and is totally unscrupulous.

Mr. STEVENS, in a recent speech, quoted the following passage of Scripture in favor of equal laws for all men:

"Ye shall have one manner of laws, as well as for the stranger as for one of your own country; for I am the Lord your God."

WHAT THE SOUTH SHOULD UNDERSTAND.

We are glad to take the following from the Springfield (Mass.) *Republican*, which, till within a short time has been one of the "demi-Johnson" papers:

"What needs to be made clear to such of the Southern people as are truly disposed to be loyal is, that the North is not vindictive; it does not demand the punishment of the people of the South, nor their disfranchisement, nor the confiscation of their property. Nor is there any fear of their future political predominance, if they can be met on equal terms. The sole thing for which the North is strenuous is that there shall be equality in the Union; that a Northern voter shall have the same political power as a Southern one. This can only be secured by the amendment to the Constitution apportioning representation in Congress according to voters, instead of population. If the Southern States would give the suffrage to all citizens, without regard to race or color, there would be no need of this amendment. But they are not likely to do this for some years to come, and only by the pending constitutional amendment can the always loyal States secure their just share of power in the Union. They have, therefore, the right to insist upon it, and will continue to do so. It is so obviously just that the refusal to concede it on the part of the lately rebel States, is in itself evidence that they are not yet inclined to fair and honorable terms of adjustment.

It is indeed unfortunate that this manifestly just and necessary amendment was coupled by Congress with others not so essential, and it is possible that, at the next session, Congress will separate them, and allow the States to act upon each according to its adjudged merits. But the great and indispensable amendment to equalize representation will not be yielded. It will be insisted upon with increasing unanimity and urgency by the North until it is obtained. If the reconstructed States obstinately resist it, they will

have only themselves to reproach if it shall take the form of a demand for equal suffrage, which the people of the North altogether prefer.

MAINE.

Valuable Hints Relative to the Organization of the Republican Party.

CARLISLE, Me., September 18, 1866.
DEAR SIR: Your kind letter has just been received. I thank you for it, as well as for the congratulations which you express in regard to our late State and congressional election. It is "glory enough for one day." The copperheads and *Kangaroos* (reconstructed Republicans) are the most chop-fallen set of mortals that were ever seen in Maine. Before 9 o'clock P. M. on the day of election, we had heard the result of the vote. At the first part of the evening, a few copperheads came into the telegraph office, but as soon as the returns began to be read, these patriots decamped instantly; they could not "stand the racket." Our five Congressmen are as steel and radical in the core.

This election turned exclusively on Congress or Johnson. This was the issue throughout the whole campaign. Our election was the most warmly contested one that we have had for many years. The copperheads and their allies fought with a zeal worthy of a better cause. The loyal party, however, were well organized, their ranks stood firm against the assaults of traitors, every inch of ground was contested, and the result was a glorious victory. After the smoke of the battle had cleared away, each party was astounded at the magnitude of this great Republican victory over the hosts of the rebellion. In Maine we have a Republican town committee in every city, town and hamlet in the State consisting of not less than six men, good and true, whose duty it is to call meetings and see that a sufficient number of ballots are printed for all loyal voters, (this committee in large places sometimes number 25 or 30,) then there is another committee appointed by the town committee for the purpose of getting out every loyal voter, six at least in every school district. Just before an election, we have preliminary meetings of our party, to choose vote distributors. At the recent election, we chose 10 vote distributors. I am in hopes that Michigan will do as well, if not better, than Maine. Your party must be organized, and thoroughly, if you would beat us in November. You must not return a single copperhead member to Congress in Michigan. Perhaps you in the West may not be familiar with the *Kangaroo* party. In the east, we call reconstructed Republicans *Kangaroos* on account of the gigantic leaps which they are obliged to take for the sake of the President's "bread and butter" from republicanism to Johnsonism, but they are in such a hopeless minority, that little or no account is made of them here.

You may tell Gen. Schurz that we attribute much of our success in Maine, to the President's late electioneering raid; if he had started on his tour a week earlier, we no doubt, would have gained 3,000 more votes. Further, if Johnson had made a general sweep in "kicking" out faithful and loyal office-holders, before our election, we should certainly have gained an additional 3,000—making 6,000 in all. The people are sick at heart of Johnson's conduct. If the election was tried over to-day, I really believe, that the Union Republican majority would be 40,000.

Yours truly, U.

DR. J. W. POLAND'S

White Pine Compound!

Is now offered to the afflicted throughout the country, after having been proved by the test of ten years in the New England States where its merits have become as well known as the tree from which it derives its virtues.

WHITE PINE COMPOUND CURES

Sore throat, Colds, Coughs, Diphtheria, Bronchitis, Spitting of Blood, and Pulmonary affections generally. It is a remarkable remedy for Kidney Complaints, Diabetes, difficulty in voiding Urine, Hemorrhage of the Kidney, and Bladder, Gravel, and other Complaints.

"It was early in the Spring of 1855 that this compound was originated. A member of my family was afflicted with an irritation of the throat, attended with a disagreeable cough, I had for some months previous thought that a preparation having for its basis the inside bark of white pine might be so compounded as to be very useful in diseases of the throat and lungs. To test the value of it in the case alluded to, I compounded a small quantity of the medicine that I had been paining and gave it in teaspoonful doses. The result was exceedingly gratifying within two days the irritation of the throat was removed, the cough subsided, and a speedy cure was effected. Soon after this I sent some to a lady in Londonbury, N. H., who had been suffering for some weeks from a bad cough, occasioned by a sudden cold, and had raised much mucus streak

The County Convention.
Was held at Ann Arbor Thursday and marked with a harmony and unanimity of action which was indeed gratifying. A strong ticket was nominated, and all it needs to insure its election is for every Republican to put his own shoulder to the wheel. There are three soldiers on the ticket, who were nominated by acclamation. The following is the ticket:

For Senator—J. W. Childs, of Augusta; Sheriff—Byron R. Porter, Manchester; County Clerk—John L. Thompson, Ann Arbor.

Register of Deeds—Clinton Spencer, Ypsilanti.
Treasurer—John W. Babbitt, Salem.
Prosecuting Attorney—D. Cramer, Ann Arbor.

student receives in banking alone is well
worth the tuition fees. Hon. T. M. Cool-
ey, Professor of Law in the State University

No Sin!—It is true that the popular

does not dry up a cough, but loosens it

take it yourself for colds.

It does not take a week to receive
benefit from Coe's dyspepsia cure. It
will immediately relieve pain in the
stomach, souring or raising of food,
and cure the worst cases of dyspepsia.

SPECIAL NOTICES.

ESPECIALLY TO THE SICK.

DR. E. J. LITTLE MATTOCKS, late of New
York. For thirty years Dr. Mattocks has de-
voted his whole attention to the cure of chro-
nic diseases of every name and nature, and has
effected remarkable cures in lingering diseases.
True medical science is our foundation; our
practice differs from all others; we know the
diseases and also the remedy. No experimenting,
no deception, no humbug. Do not give poisons;
use entirely vegetable medicines, good
to take, and mild with nature. We give a can-
did opinion, and effect permanent cures. We
ask a trial before abandoning hopes. Hun-
dreds have been cured after given up to die.
No matter what your disease is; examine for
yourself; will cost you nothing for consul-
tation is free. Dr. Mattocks can be consulted
at the house of Mr. John M. Sweet, three miles
west of Ypsilanti, in the town of Pittsfield,
where he can be seen until further notice. We
claim to cure all curable cases of Chronic Dis-
eases of the head, throat, lungs, stomach, liver,
"kidneys and bowels," Dyspepsia, Rheumatism,
Neuralgia, Sciatica, Cancer and all im-
purities of the blood, and all diseases peculiar
to females. The best of references will be
given as regards capabilities and success as a
Physician, as well as moral character as a
Christian gentleman. No case undertaken un-
less there is a hope of doing them good. All
the sick are earnestly invited to call.
Ypsilanti, Sept. 15th, 1866. 133-136

ALBION COMMERCIAL COLLEGE.—The success
of this popular institution is entirely attrib-
utable to its substantial merit. Although mod-
est in pretensions, it is unsurpassed in excel-
lence. A recent board of visitors properly say
in their report: "It is much better than most
that claim perfection." Hon. IRA MAYHEW,
President, author of "Mayhew's Practical
Book-keeping," gives regular courses of lec-
tures on which all students attend. The Prin-
ciples of Departments are also accomplished
and successful instructors. Persons desirous
of obtaining a good business education here en-
joy rare privileges at moderate cost. Pam-
phlet circulars sent on application. 133-136

CHOLERA, CHOLERA!

IT IS COMING! All should be prepared to
ward it off, not only by the adoption of pro-
per sanitary means, but by having at hand some
effective remedy for ready use when the dread-
ful disease appears. It is the opinion of emi-
nent physicians that most cases of cholera can
be readily cured if a proper remedy is used
early. Such a remedy we now offer to the
public in the article of Dr. J. R. MILLER'S
Universal Magnetic Balm.

with the fullest confidence in its remedial qual-
ities as a PREVENTIVE and CURE for CHOLE-
RA. It has been thoroughly tested, and we
speak advisedly when we commend it to the
public as the best known remedy for CHOLERA
AND BOWEL COMPLAINTS. D. RANSOM

REASONS WHY.

THE AMERICAN WATCH, made at Wall-
ham, Mass. is the best. It is made of solid
plates. It is made of the best principle. Its frame
is composed of solid plates. No jar can inter-
fere with the harmony of its working and no
sudden shock can damage its machinery.
Every piece is made and finished by machine-
ry (itself famous for its novelty, as well as
for its effectiveness) and is therefore properly
made.

At the beginning of our enterprise, more than
ten years ago, it was our first object to make
a thoroughly good low-priced watch for the
million, to take the place of these foreign im-
positions—the refuse of foreign factories—
which are entirely unsuitable at home, and
perfectly worthless everywhere.

How well we have accomplished this may be
understood from the fact, that after so
many years of public trial, we now make
more than half of all the watches sold in the
United States, and that no others have given
us such universal satisfaction. While this de-
partment of our business is continued with in-
creased facilities for perfect work, we are at
present engaged in the manufacture of watches
of the very highest grade known to chrono-
metry, unequalled by anything hitherto
made by ourselves, and that no others have
given us such universal satisfaction.

Whipping-Cough Cured.—T. Alcock & Co.,
Gentlemen: Please send me another six dozen
of your Porous Plasters. They are a great
demand here for Whipping-cough. They act
like a charm. I could have sold two dozen
this week if I had them sent. Send as soon
as possible, and oblige, JOHN I. WILLIAMS.

Asthma Cured.—Mr. Wm. May, of 245
Spring Street, New York, writes, Jan. 1, 1856:
I have been afflicted with asthma for upwards
of ten years, receiving no benefit from medical
men. I was advised by a young friend to try
one of Alcock's Porous Plasters. I said, I had
tried several kinds of plasters without any ben-
efit, and supposed they were all alike. My
friend gave me one of Alcock's, and urged me
to use it. I did so, and have now worn them
steadily for nine months, and find myself better
than I have been for many years. Agency,
Brander House, New York. Sold by Drug-
gists.

POWELL & CO.'S CONSTITUTIONAL A-

MEASUREMENT PICTURE.

We have been shown a copy of this admir-
able photograph and do not hesitate to pro-
nounce it one of the finest group pictures ever
published. It consists of 150 separate pictures
arranged upon one card, in concentric circles,
having Lincoln at the base, Hamilton at the top
and speaker Calfax in the centre. Its histori-
cal interest gives it chief value, which will in-
crease with every year of our future. What
would we give for such a picture of the signers
of the declaration. The publisher has done a
national service in putting such beautiful form
the likenesses of those noble men who voted
to wipe out the great blot upon the fame of our
country.

The picture in its present form is within the
reach of all. The cost of them taken on sepa-
rate cards would be from \$20 to \$30.
This Wilkinson of Ann Arbor is agent for
this county and will introduce the work. We
bespeak for him a large sale.
